

**StepRight™**

**BouMatic™**

## ***Natural virgin rubber flooring.***

***Now there is an all-natural, non-recycled, rubber flooring for your cow's comfort and hoof health.***

## Save cows and save money with durable, easy-to-install flooring

### Why Is StepRight's Natural Virgin Rubber Compound Better?

- Natural virgin rubber won't deteriorate like recycled rubber flooring products
- StepRight is non-absorbent and more urine resistant.
- It is more resilient and won't flatten over time like recycled rubber products.

### StepRight™ Improves Hoof Health

- Fewer sole erosions
- Improved traction
- Reduces mechanical injuries
- Better heat detection

### StepRight™ Has Many Unique Features

- Patented free-floating system
- Closed system design that eliminates all but a few anchors
- The surface is skid resistant
- StepRight is static-free and electrically resistant
- Fast, easy, do-it-yourself installation

### Rolls or Mats—Both Easy to Install

#### ROLLS —

StepRight Natural Virgin Rubber Flooring comes in 110-foot rolls in your choice of 3- or 4-foot widths. Rolls are ideal for alleys, breezeways, crossovers and holding pens. The easy install seam clipping system (patent pending) uses a minimum number of anchors and allows the entire floor to expand and contract as one unit. The bottom surface is grooved for maximum drainage.

#### MATS —

StepRight Natural Virgin Rubber Flooring interlocking 4 x 6 foot mats are precut with exacting tolerances. Precision cut, interlocking lugs provide tight-fitting seams. Mats can be custom cut to fit any size room or parlor, including rotary parlors.

Research is proving that adequate traction on concrete floors—even grooved or roughened floors—is often inadequate. In addition, concrete flooring is now shown to be associated with an increase in lameness and hoof problems, and an increase in herd cull rates.

# Easy-to-install StepRight™

## StepRight™ — The Right Path for You

**StepRight Natural Virgin Rubber Flooring** is an important part of BouMatic's complete hoof health program. Together with StepGuardian hoof bath and StepSept hoof bath solutions, StepRight provides unsurpassed cow comfort and hoof health, and increased milk production. That translates to a stronger bottom line for your dairy operation. Call your BouMatic dealer today. Ask for a demonstration. You'll be making a step in the right direction.

## Where StepRight™ Can Benefit You

### **Holding Area**

- Reduced stress while cows stand for long periods
- Faster parlor fill-rates

### **Parlor**

- Minimized hoof stress from pivoting
- Faster fill and exit rates
- An alternative to concrete resurfacing

### **Freestall Lanes and Pens**

- Reduced hoof wear
- Improved traction
- Better heat detection

### **Exit Lanes**

- Reduced heel wear on declining slopes
- Faster exiting

### **Feed Alleys**

- Increased dry-matter intake
- Reduced stress while standing

### **Walking Lanes**

- Reduces wear from walking longer distances on concrete
- Cow traffic will move faster
